SUMMARY

Computer Engineering undergraduate with a strong foundation in React, MERN, Django, and working knowledge of ASP.NET MVC. Experienced in developing full-stack applications with authentication, admin dashboards, role-based workflows, and database-driven features. Fast learner who turns ideas into clean, usable, real-world solutions.

EDUCATION:

B.E. Computer Engineering (2023–2027)
LJ Institute of Engineering & Technology, Ahmedabad
Current SPI: 9.58

PROJECTS:

Railway Booking & Ticketing System — Django + Admin Dashboard

- A System built with Django5, SQLite & a ML forecasting pipeline using scikit-learn and pandas, NumPy.
- Implemented authentication, booking flow, ticket generation, and booking history tracking.
- Designed admin dashboard with analytics, booking forecast and category-based filtering.
- Also built a Java, Data Structures (Linked List & Stack) & DBMS (MySQL) console application for academic related project.

Cafe Kiosk Self-Service Ordering App — MERN Stack

- Built card-based UI allowing users to browse menu items, add to cart, and place orders.
- Developed admin module to track orders, revenue and user activity.
- Optimized ordering flow from 6+ clicks to 3 clicks, improving ordering speed and UX.

Job Portal System (AI-Powered Resume Matching) — MERN + Django Microservice (Collage Group Project)

- Built a full job marketplace with job posting, resume upload, and applicant tracking.
- React (Vite) UI with state management via Redux; backend using Node/Express and MongoDB with JWT auth.
- Integrated Django microservice using Groq LLM to extract resume details and compute compatibility scores.
- Automated candidate shortlisting → significantly reduced manual effort for recruiters.

TECHNICAL SKILLS:

- **Programming Languages:** Python, Java, JavaScript(ES6+), C#
- **Web Development:** Django, MERN Stack, React, Node.js, Express.js, ASP.NET
- **Databases:** PostgreSQL, MySQL, MongoDB, SQLite
- **Machine Learning & Data:** scikit-learn, Pandas, NumPy, Matplotlib
- **Tools & Platforms:** VS Code, Visual Studio 2022, Jupyter, Git, GitHub, pgAdmin

CERTIFICATES:

- Hack-NU-thon 6.0
- Exploratory Data Analysis for ML
- Inheritance and Data Structures in Java
